**Subject: Federal Register Notice of Intent for Partial Deletion of the Treasure Island
Naval Station – Hunters Point Annex Site from the National Priorities List**

Dear Ms. Douglas:

The San Francisco Redevelopment Agency would like to express our support of the deletion of Parcel A of the Hunters Point Shipyard from the National Priorities List (NPL). Our Agency has been involved with the process for the cleanup and reuse of the Hunters Point Shipyard since the late 1980's. Our Redevelopment Plan for the Hunters Point Shipyard, which was adopted in July 1997, includes Parcel A as an integral part of the redevelopment of the Shipyard. The Agency views the deletion of Parcel A from the NPL as one more piece in the puzzle toward the eventual redevelopment and productive reuse of the Shipyard. This action will provide extra assurance to lenders and developers working with the City that the property is ready to go.

Thank you for your assistance in this matter and we look forward to working with the USEPA on the cleanup and eventual deletion of other Parcels from the NPL.

Sincerely,

Byron Rhett
Senior Project Manager
